Tran Thien Quoc Anh

Software Developer

Having completed my degree in software engineering at FPT University, I am proficient in a number of programming languages and frameworks. I interned with FPT Software for 6 months as a Software developer, specializing in Java and C#, Spring Boot platform and MVC framework and worked in fintech at VietQR VN for more than 7 months as a backend developer. I have a burning desire to learn more and create effective technological solutions

SPECIALTIES

- Over 2 year of experience in analyzing, designing, developing, and troubleshooting web applications and web services.
- Over 1 years of experience in C# (.NET) programming language with practical projects at school and businesses.
- Strong in .NET 6-8, .NET Framework, Entity Framework, Blazor, WPF, ASP.NET, SignalR, ...
- Experience 1 year of programming in Java programming language and Spring Framework, Spring Boot, Spring Hibernate, Spring JPA, Spring Security, ...
- With over 7 months of experience in the fintech sector, I have developed expertise in transaction inquiry and processing, along with hands-on experience in directly communicating with clients to resolve issues within the domain.
- Good at applying best practices, such as design patterns, and clean code, during the coding phase.
- Have problem-solving skills with an ability to quickly identify, debug and resolve issues.
- Experience working with teams in a variety of software development processes.

- GitLab: https://gitlab.com/anhttqse150627/recruiment_application_api.git

EDUCATION

FPT University

Information technology

Nov 2019 - Nov 2023

Major: Software Engineering (.NET)

SKILLS

Front-End
HTML, CSS, Boostrap, MUI, ReactJS, NextJS (TS)

Back-End
- .NET (2.5 yoe+)
- Java (2 yoe+)
- Spring Boot(Microservice) (1 yoe+)
- NodeJS
- PHP

Database
SQL Server, MySQL, MongoDB

Project Management Tools
Jira, Trello, Click Up

CERTIFICATIONS

2021

- Computer Communications Specialization.
- Web Design for Everybody: Basics of Web Development & Coding Specialization

2022

- CertNexus Certified Ethical Emerging Technologist.
- Software Development Lifecycle Specialization.

2023

- CertNexus Certified Ethical Emerging Technologist Professional

Certificate

2024

- Project Management Principles and Practices
- User Experience Research and Design Specialization

Others

Microservice, SonarQube, KeyCloak, Docker, AWS, Azure, ZNS, Git, GitHub GitLab, Figma, Swagger, Postman, Draw.io
